**Story:**
As a user, I want to install an application using Google Play Store or App Store, so that I can open an application

 **Acceptance Criteria:**
- User should be able to find application in the store by typing Wire in store search field (Wire Personal)
- User should be able to tap on Install (Download) button
- After installation user should be able to launch an app by tapping the icon or using the Open button. User is redirected to the 'Welcome to Wire' page.
